

SURGICAL SCRUB BRUSH

STERILE, DISPOSABLE SURGICAL SCRUB BRUSH
WITH SPONGE & NAIL CLEANER

- Disposable surgical scrub brush with integrated sponge, dry, without liquid, and sterile
- For surgical staff and patients to achieve optimal preoperative hand and skin hygiene and antiseptics, for infection prevention.
- Soft bristles to clean nails and knuckles and sponge designed to clean hands, forearms and skin.
- Supplied with a Nail Cleaner
- Anatomical design for comfort and ease of use
- Kind to the skin, avoids skin irritation and abrasion
- Meant for single use only

Available in Dispenser Box containing
30 Surgical Scrub Brushes

Directions for Use:

- Remove the Surgical Scrub Brush and Nail Cleaner from the outer pouch
- Take adequate precautions to ensure that sterility of the product is not compromised
- Dip the Scrub Brush with sponge side down, into a tray containing the desired antiseptic cleansing liquid and press for 30 seconds to ensure that the sponge soaks up maximum amount of liquid
- Press the soaked sponge onto the hands / skin to deliver cleansing liquid to the desired area
- Scrub the cleansing liquid into the skin / hands using the brush. Use clean water also if required, to generate additional foam
- Use the Nail Cleaner to remove dirt from under nails for thorough cleaning
- Dispose brush after single use
