

# INSTRUMENT CLEANING BRUSHES

## REUSABLE & AUTOCLAVABLE

Our new line of imported reusable & autoclavable flat brushes are especially designed for effective pre-cleaning of a wide range of surgical instruments

### Special features:

- Autoclavable up to 138°C
- Transparent polyamide fibers ensure high bristle quality and allow for quick verification of its cleanliness
- Ergonomically designed with long handle for a comfortable hand grip
- Adequate length of bristled section (70 mm)
- The plastic used to create the handle does not release any toxic components
- Latex-free composition

### FLAT GREEN RIGID, REUSABLE BRUSH

The rigidity of this brush, along with the length of the bristles and handle improves and simplifies instrument cleaning

**Length:** 220 mm

**Brush Size (Length x Width x Height):** 70 mm x 20 mm x 15 mm

### FLAT YELLOW FLEXIBLE, REUSABLE BRUSH

This brush is designed for large instruments that require a more gentle cleaning application, such as, optics, plastics or hard to reach spots which are easier to clean using a flexible bristle.

**Length:** 220 mm

**Brush Size (Length x Width x Height):** 70 mm x 20 mm x 15 mm
