Surgical Scrub

7.5%

10%

Composition

Povidone-Iodine IP 7.5% w/v

(Equivalent to Available Iodine 0.75% w/v)

Other strengths available: 10.0% w/v

Salient Features

- Topical microbicidal, effective against Bacteria, Fungi, Yeasts, Protozoa and Viruses

Ensures

- Broad spectrum antimicrobial activity
- Pre-operative scrubbing and washing of hands by surgeons and theatre staff
- Post-operative cleansing at the operative site
- Non-staining
- Cost effective

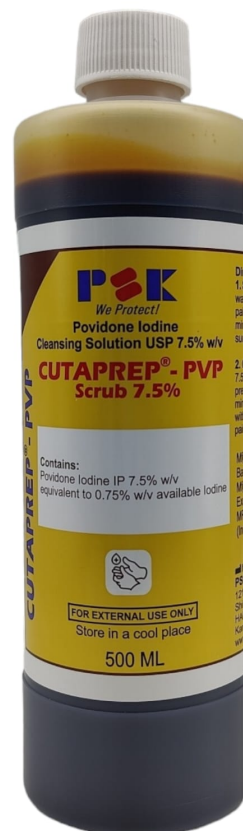

Directions for Use

Pre-operative scrubbing and washing of hands:

Wet hands and forearms with water. Pour about 5 ml of CUTAPREP-PVP surgical scrub on to the palm and rub the same thoroughly over the entire area for about 2 minutes. Use a brush if desired. Add a little water to develop copious suds. Finally rinse thoroughly under running water.

Pre-operative cleansing at the operative site:

Apply CUTAPREP-PVP surgical scrub (1 ml is sufficient to cover an area of 20-30 sq.in) on the pre-shaved and wet skin and rub the same thoroughly for a minimum of 2 minutes. The lather so developed may be rinsed off with sterile gauze saturated with water. The area may then be painted with CUTAPREP-PV antiseptic solution and allowed to dry.
